

HOW TO YALI LEARNS

Hold Your Session

Video Transcript

MAN: You can do a lot with YALI online.

WOMAN: But you can do more in person.

MAN: You can share a YALI Network online course with your community.

WOMAN: The third step of YALI Learns is to hold your session.

It's your show, so run it with confidence. Get there early to set it up, and check everything out. If you want to use visual aids and handouts, have them ready. Welcome your guests. Make introductions, and make them comfortable. Tell them the plan and stick to it.

Now, lead the session and share the course materials, but be ready for the unexpected. Think of what could go wrong and plan for it. During your session, make sure to take photos and videos to share.

Lead the way but also listen. Don't lecture the whole time. Leave room for discussion. Let others help create a plan of action that everyone is excited about.

Find your passion.

MAN: Share your knowledge,

WOMAN: Join with others.

MAN: Build your community.

WOMAN: You can do it...

BOTH: ...with YALI learns.
